

QiDO Energy Development is a German-French Advisory & Consulting boutique in the energy sector, specialized in renewable energy.

Benefiting from the extensive professional experience of its partners, and leveraging a global network of experts, QiDO is offering high-level business strategy and independent engineering services.

QiDO's main clients are large utilities, technology providers, international agencies and project developers worldwide. Mostly operating on developing markets, QiDO is bringing technical & business expertise to support and boost the transformation of the local energy sector.

Established in 2011, we are trusted by first-class clients and partners in the international energy arena. They value our deep knowledge of the industry, high performance standards and our innovative, tailor-made solutions that bring real added value to their decision-making process.

To date, we have completed a large number of challenging missions all over the globe, engaging teams, building commitment and shaping the energy world of tomorrow.

#### **PURPOSE OF THE MISSION:**

To accelerate our sustained growth, we are currently looking for a full-time:

#### **WIND PROJECT MANAGER**

to join our small and high-performing team and to drive a wide range of international assignments.

As a Project Manager, you will play a key role in our international consultancy activities.

Based in our headquarters in the heart of Berlin, the role offers access to a global playground, ranging from mature and established markets to developing and fast moving countries (the Americas, Caribbean Islands, Africa...) – and includes business travels.

This is an ideal position for a talented professional with a strong technical background who is willing to add another exciting dimension to his/her career.

#### **QiDO Development EURL**

40 rue Richard Wagner - 33700 Mérignac - France

SIRET: 53957615700025

VAT: FR49539576157

#### **QiDO Energy Development GmbH**

Rosenstrasse 2 – 10178 Berlin – Germany

HRB 163830 B

VAT: DE 299 199 685

### **YOUR RESPONSIBILITIES:**

Leveraging your technical expertise to drive current consultancy engagements, particularly in wind and solar PV, mini grids and feasibility studies:

- ✓ Wind and solar resource assessment, plant layout, annual energy production
- ✓ Conceptual electrical design of plants and coordination of detailed electrical studies
- ✓ Coordination of environmental and detailed electrical studies
- ✓ Globally, managing project feasibility and prefeasibility studies
- ✓ Mini grid design (load assessment, system sizing, socio economics evaluation)
- ✓ Tendering of various sub consultancy services
- ✓ Stakeholders management (clients, donors, partners, consortiums)
- ✓ Lead market watch on new technological innovations and identify potential technical partnerships opportunities, playing an active networking role within the community.

### **YOUR PROFILE:**

- ✓ Master's degree in Engineering
- ✓ Around 5 years of demonstrated track record in international infrastructure project development and/or consultancy, in developing countries (experience in Africa is a plus)
- ✓ Experience in the renewable energy industry is a must, with proficiency in Wind energy
- ✓ Experience in working with international development agencies is a plus
- ✓ Multi-tasking skills & ability to maintain a high level of performance under pressure
- ✓ Client and result-oriented way of working, outstanding problem solving ability
- ✓ People personality: strong collaborative leadership and desire to connect & interact with multiple stakeholders in complex environments
- ✓ Very good (written) communication skills
- ✓ Full proficiency in Microsoft Office and relevant professional softwares (Wind)
- ✓ Fluency in both English and French. German and/or Spanish would be a plus.

### **WE OFFER:**

- ✓ Impact on ambitious and innovative projects, exposure to a wide range of client types, active on industry shaping issues,
- ✓ Fair and pleasant working atmosphere (agile structure with flat hierarchies, client / performance oriented action, a true people company)
- ✓ A great place to grow: fulfilment of your potential & a place to have a say in the company's management decisions
- ✓ Office in the center of Berlin
- ✓ Long-term position (short-term position or VIE possible)
- ✓ Preferred date of entry on the 1<sup>st</sup> of March but could also be possible on the 1<sup>st</sup> of April

If this sounds like you and that you are willing to work with us in a stimulating environment for a sustainable future with renewable energies, please send us your application (CV and cover letter, stating your earliest possible starting date) to [contact@qidodev.eu](mailto:contact@qidodev.eu).
