

QiDO Energy Development is a German-French Consulting Boutique specialized in renewable energy. Besides providing business strategy and independent engineering services to our Clients, we also help them to recruit the best talents and experts for in situ short-term or long-term assignments.

QiDO's main clients are large utilities, technology providers, international agencies and project developers worldwide. Mostly operating on developing markets, QiDO is bringing technical & business expertise to support and boost the transformation of the local energy sector.

Established in 2011, we are trusted by first-class clients and partners in the international energy arena. They value our deep knowledge of the industry, high performance standards and our innovative, tailor-made solutions that bring real added value to their decision-making process.

To date, we have completed a large number of challenging missions all over the globe, engaging teams, building commitment and shaping the energy world of tomorrow.

Today, for one of our client, we are looking for a full-time:

### **PROJECT MANAGER**

Starting June 2018, the position is based in France, Rhône-Alpes and includes international business trips.

#### **YOUR RESPONSIBILITIES:**

- ✓ Management of a portfolio of hydro projects in France, Latin America & other countries
- ✓ Coordination of internal and external activities (design studies, sales department, installation department, accounting, subcontractors)
- ✓ Contract management (client liabilities, claim management)
- ✓ Consortium management

#### **YOUR PROFILE:**

- ✓ Master's degree in Engineering
- ✓ Around 5 years of demonstrated track record in international infrastructure project development and/or consultancy

**QiDO Development EURL**

40 rue Richard Wagner - 33700 Mérignac - France

SIRET: 53957615700025

VAT: FR49539576157

**QiDO Energy Development GmbH**

Rosenstrasse 2 – 10178 Berlin – Germany

HRB 163830 B

VAT: DE 299 199 685

- ✓ Experience in the energy industry is a must, in hydro a plus
- ✓ Client and result-oriented way of working, outstanding problem-solving ability
- ✓ People personality: strong collaborative leadership and desire to connect & interact with multiple stakeholders in complex environments and within a small structure
- ✓ Very good (written) communication skills
- ✓ Full proficiency in Microsoft Office and relevant professional softwares
- ✓ Fluency in both English and French, Spanish welcome

If this sounds like you and that you are willing to work in a stimulating environment for a sustainable future with renewable energies, please send us your application (CV and cover letter) to [contact@qidodev.eu](mailto:contact@qidodev.eu).
