Advisory & Consulting

QiDO Energy Development is a Franco-German Advisory and Consulting Boutique providing services in the energy sector and specialized in renewable energy.

We primarily provide Business Strategy and Independent Engineering services to our Clients, helping them to structure and build profitable and sustainable energy infrastructures.

We also help our client and partners to recruit the best talents and experts for in-situ short term assignments or long term positions.

- > **Industry insights:** We know the sector in and out; who's shaping it, who's operating it, where you stand and what you need,
- > **Market makers:** Being active on the latest international projects, we know exactly what kind of skills and personalities are needed at each step of your projects,
- > **The selection of candidates as a quality process:** The candidates are carefully selected and interviewed by senior peers, we might even already have worked with them and experienced their abilities,
- > **Cultural match:** Every company is unique, every mission is unique. Finding the right skillset that will match the company culture and embrace the challenges is ours,
- > **Convert the try!** Onboarding in an new company can be challenging. To make it successful, we maintain that special link between us to ensure maximum satisfaction and commitment to an efficient relation.

What candidates say about us:

Martina	Sylvain
Year of experience: 27 Position: Head of Business Unit	Year of experience: 15 Position: Project Manager
<i>"The support provided by QiDO during the onboarding period was extremely useful and helped me to secure my long-term position in the company"</i>	<i>"QiDO prepared me well for my entry into the new company as a Project Manager and also greatly supported me to find a new position when I decided to stop. Great attention !"</i>
